PREVENTION / MONITORING / FOLLOW-UP

WE PROTECT WHAT MATTERS MOST.

Professional pest prevention
and control in Los Cabos.

San José del Cabo · Baja California Sur

PREVENTION COMES FIRST

GOOD PROPERTY CARE STARTS WITH UNDERSTANDING IT.

You do not need to wait for a problem. We get to know your property, identify conditions that need attention and build a preventive plan. We treat when needed.

INSPECT

IDENTIFY RISKS

PREVENT

TREAT WHEN NEEDED

MONITOR

FOLLOW UP

Thoughtful prevention.
Consistent care.

RESIDENTIAL

YOUR HOME SHOULD FEEL LIKE HOME.

Homes, condos, villas and vacation properties.
Preventive plans tailored to your space, with
targeted attention when needed.

PREVENTION AND TARGETED TREATMENT

Cockroaches · Ants · Spiders
Mosquitoes · Rodents · Termites
Moths · Bed bugs

Other concerns assessed during inspection.

Your home does not need a problem to deserve
ongoing care.

COMMERCIAL / MANAGED PROPERTIES

YOU RUN YOUR BUSINESS. WE LOOK AFTER THE DETAILS.

Preventive programs for businesses
and managed properties.

RESTAURANTS

PROPERTY MANAGERS

CONDOS / HOAs

RETAIL SPACES

RENTAL VILLAS

HOSPITALITY

Recurring programs with inspection, prevention,
monitoring, reports and follow-up. Treatments
based on findings.

Visits coordinated with your team. Ongoing
attention to your property.

HOW WE WORK

A CLEAR PROCESS. FROM START TO FINISH.

01

GET IN TOUCH

Tell us about your property and how you use it.

02

INSPECTION / ASSESSMENT

We check conditions, entry points and signs of activity.

03

PROPOSAL

We outline a plan, service schedule and recommendations.

04

SERVICE

We carry out preventive measures and treatment if needed.

05

REPORT

We document the work when required by the service.

06

FOLLOW-UP

We review results and adjust the care plan.

Care today.
Plan ahead for tomorrow.

A MORE THOUGHTFUL APPROACH

PREVENT FIRST. APPLY ONLY WHAT IS NEEDED.

Every property needs a plan. Depending on its conditions, we may combine:

PREVENT AND MONITOR

Prevention, sanitation, sealing entry points and monitoring.

TREAT WITH PURPOSE

Targeted baits and gels, stations and conventional treatments when needed.

In development: biological or botanical methods where technically appropriate.

HOMES WITH SPECIAL CONSIDERATIONS

We are developing protocols for households with children or pets, and clients seeking to minimize unnecessary applications.

Selection depends on the assessment and product instructions. Lower-exposure options are considered where appropriate.

YOUR PROPERTY, IN GOOD HANDS

PEACE OF MIND FOR YOUR PROPERTY STARTS WITH A PLAN.

Tell us about the property you want to care for. We can help you build a preventive plan or address a specific concern.
